## Customer Reviews

Frome has put together the best book on VP if you want to win. It includes the strategies for 60 of the most popular games out there including the very popular DOUBLE BONUS/DOUBLE-DOUBLE BONUS Games. I was in Las Vegas back in February, and I found a strategy table in here for virtually every game I could find in a casino. Nothing is left out!

I go to LV a couple of times a year and take frequent day trips to Atlantic City as well. I always make sure to bring this book with me. The book helps me make sure I only play the best paying machines with the best pay tables. It has the strategy tables for more than 60 variations of Video Poker which makes it easy to learn how to play the version you like the most. I also own the companion software which lets me practice on the same versions of the games and tells me when I make a mistake in playing. If you play Video Poker, you HAVE to have this book

A wonderful, comprehensive, easy to read book on video poker. It makes it easy and fun to play the game and to know you are making the right play. Lenny Frome deserves his title as master of video poker. I started out not really knowing how to play the game but now I love playing and feel confident that I am using the winning strategy! The EV tables make are easy to use. I also suggest

reading VP Americas National Game of Chance by the same author.

I am a regular video poker player. I had heard many positive things about Mr. Frome's book, though I do not generally enjoy reading. The book was very enjoyable to read and immediately improved my play and that was very rewarding, if you know what I mean. I highly recommend the book for players at any level.

Strategies and payback percentages for over 60 pay tables. Includes frequency chart for each pay table, making it easy to figure the payback percentage for variations. I wouldn't think of playing video poker without this book at my side. By steering me to the best pay tables and guiding my decisions once I start playing, this book has easily paid for itself many times over.
