North With Doc - Volume One

Synopsis

Doc and the boys from Iowa are heading North for their annual fishing trip to Canada. After dozens of fly-in adventures in Northwest Ontario, and countless walleyes and northern pike boated, their unlikely escapades are as much about friendship as fishing. Doc supplies a bait bucket of laughs while offering his sage advice to help the guys deal with life's inevitable obstacles. If you've ever spent time with a rod and a reel, you'll recognize yourself and your friends in these refreshed versions of the popular In-Fisherman magazine feature that first appeared in 1989. Perfect for enjoying in the living room, the bedroom or the throne room, here are episodes 1 through 25 as Doc and his best buddies are having the times of their lives.

Customer Reviews

If you enjoy fishing with a bunch of guys you know and have fished with, then this is a series you will really love. Set in Northern Ontario in a fly into lake with walleye and northern pike as the targets. The six guys are all character studies in themselves. There are several other "North with Doc"

books in the series. Funny and well written. Knowles stories show up in "In Fisherman" each month as well, in case you cannot wait for the next 50 to show up in a new book.

I've been going on my own Canadian adventure for 6 years straight now. Reading these stories helps to make the next trip back to the Canadian wilderness come a little sooner. I love every story and when I finish reading the entire collection, I'm sure I will start from the beginning and read all of them again. Anyone who enjoys fishing should read these stories, they are insightful, touching and most of all FUNNY! Thanks, Greg ;)

If you have been on a fly in trip to Ontario, you will be reminded again of the great times you had. It sounds so much like our group that has been many times, except for the drinking and smoking. The constant ribbing, weather, meals, travel, fishing and just plain fun could have been a book on us. Thanks Doc! and Greg for printing the stories. Don't know where you get all those adjectives, but they fit.

Just an excellent author -- was buying INFISHERMAN just to read his articles over the past couple of years -- actually bought a Kindle just so I could get all the old articles when they announced they would be available on Ereaders!!!

The Doc in these stories was my dentist. He is now retired, but we always talked about our fishing trips during my checkups. There is just enough truth in these stories that we can all relate to, to keep you laughing. Thanks Doc!

I've always enjoyed these stories from the back pages of In-Fisherman. Taken in small doses like that they were more enjoyable than reading page after page of Doc's smelly cigars. If I only read a chapter at a time they would be easier to swallow.

Great read of short stories. Good mix of laughs, adventure, and life lessons. Hits home, especially after fishing in northwest Ontario with family and friends for many years.

If you have ever been to Canada on a fishing trip you will really relate to the book. If you haven't, you will find this book enlightening and amusing. Too short .
