## Customer Reviews

This chart is a great study aid for basic secured transactions law. It is a useful study aid for law school exams and the bar exam. It's breakdown of priority is very easy to follow, and the definitions given are clear and concise.

This is a must for ST. ST is a bit overwhelming at first but looking at the big picture first helps understand the small subparts, and this chart definitely helps with that. I got an A on this course thanks to this chart and the Secured Transactions Q&A.

Since the image on Web was not clear, (of course for copyright protection) I bid on the content. It is OK but not very useful for my Sec. Trans study. It may work for others.

Overall, this is a good, quick study sheet.

Extremely helpful. I am very glad I purchased this product. This helped me pass the class and learn

the material I needed to learn

Don't depend on these for your finals, but they are a great last minute tool the morning of a final for a quick refresher.

Hits many of the necessary high points of Article 9 of the UCC. I recommend if you're taking a secured transactions class.
