Customer Reviews

Kindle needs to re-scan or repair this book, as paragraphs and pages are out of order. The reader is hindered by partial sentences that end abruptly, causing the reader to have to skip several pages to locate the remainder of the sentence and/or paragraph... very confusing. I am looking for a different version, as the book does present information well, but kindle has 'kindle-ized it' (aka vandalized it) into a '52-card pick up' type of text... not worth the effort to decipher. I ended up returning the book.
