## Customer Reviews

Imagine being kidnapped and being taken to a concentration camp, blindfolded, tied up and not knowing when you will ever see your family and friends again. What would you do if someone put a gun in your mouth? Alicia Partnoy proved to be a brave woman among others. What you must know is that this is a true story. It is like if you are reading something made up, but it is sadly true. It is greatly detailed and it even has a sense of humor at points. It is really amazing to see how Alicia talks about her experience and the other "disappeared" s' experiences. She was kidnapped. Did not know the whereabouts of her daughter. Her husband was kidnapped also, but they were not able to see each other. Even though she was away from them, she managed to think of them as little as possible, because she thought it would weaken her in trying to survive for them. She was always helping others in one way or another. Since they did not know when they were going to die, Alicia showed her compassion in their last hours. She was very generous when everything else was so ruthless. She shares part of her hideous life lived in the Little School, because even though she tells you what happened to her and her friends, she keeps the darkest moments to herself. It is personal, a very personal story. You should be thankful that she even wrote this book because she is informing you about what really happened at those times and how the guards treated them inside

the Little School. This book demonstrates the true value of life. Some people overlook small things in life, but these small things grow to be very significant to Alicia when she was a prisoner. It shows the importance of your five senses, the ability to smell, to touch, to hear, to taste and to talk.

Slippers, bread and a toothbrush: these everyday items are simple enough to most people in the United States, and other parts of the world, to take advantage of or even ignore. In Argentina in the mid to late 70's, however, these common items were enough to keep one young woman sane enough to escape captivity. In *The Little School*, Alicia Partnoy tells the very real stories of her capture and imprisonment in a government-run concentration camp. Partnoy spins tales of survival in a climate of oppression and death. These amazingly well told stories draw the reader into a terrifying world in which young men and women create and keep intensely strong bonds of camaraderie and friendship even as their human dignity is denied to them. *The Little School* is a book of short stories devoted to telling the true history of the 30,000 "disappeared" Argentines at the hands of the government from 1976 to 1979. Thousands of Argentines were taken captive in retaliation for civil disobedience to the government. In this book, Alicia Partnoy takes on the challenge of refuting the official statements made by the government denying the disappearances and making the truth achingly real. As a way of dealing with the reality of her ordeal, Partnoy uses her gift of storytelling to draw in the reader and make her feel what the prisoners felt. One of the key techniques that Partnoy employs in the telling of the stories in *The Little School* is continually changing the perspective from which the story is told. The story of Partnoy's own capture is told from a third person point of view as if a narrator is watching it take place.
