# Boko Haram: Islamism, Politics, Security, And The State In Nigeria

## Synopsis

This book is the first attempt to understand Boko Haram in a comprehensive and consistent way. It examines the early history of the sect and its transformation into a radical armed group. It analyses the causes of the uprising against the Nigerian state and evaluates the consequences of the on-going conflict from a religious, social and political point of view. The book gives priority to authors conducting fieldwork in Nigeria and tackles the following issues: the extent to which Boko Haram can be considered the product of deprivation and marginalisation; the relationship of the sect with almajirai, Islamic schools, Sufi brotherhoods, Izala, and Christian churches; the role of security forces and political parties in the radicalisation of the sect; the competing discourses in international and domestic media coverage of the crisis; and the consequences of the militarisation of the conflict for the Nigerian government and the civilian population, Christian and Muslim.

Reviews For scholars, government officials, journalists, and civic actors, this book expands our understanding of this enigmatic jihadist movement, its genesis, evolution, and political implications. In light of the global significance of militant Islam, the book is indispensable for students of Nigeria, Africa, Muslim societies, and armed conflicts.

-Richard Joseph, John Evans Professor of International History and Politics, Northwestern University  
This collection of essays on Boko Haram is much the best yet-well informed, coolly competent. With the insurgency still evolving, we really need this guide to its early days.

-Murray Last, Emeritus Professor of Anthropology, University College of London  
This valuable collection assembles notable experts who analyze the messages and behavior of Boko Haram. The collection also provides nuanced treatments of actors involved in the conflict, including the Nigerian state and Nigerian Christians.
